UX Design

User research (interviews, testing, surveys) · Wireframing · Prototyping · Accessibility (RGAA) · Inclusive design

Front-end development (AI-assisted)

HTML5 · CSS3 · JavaScript / TypeScript · React (Next.js) · Tailwind CSS · Supabase · Git/GitHub

UI Design & Design System

Figma (components, variants, libraries, prototyping) · Atomic Design · Design tokens · Responsive design · Documentation

Methods & tools

Agile methodology · Design Thinking · Co-design workshops · Usage analysis (analytics) · Figma · Git/GitHub

★ Professional Experience

Product Designer & Developer — FREELANCE

2026

FrenchBookDistribution · Nevers, France

- Client need: building a scanner that reads a physical order sheet, digitises it, and matches it against a list of books.
- Delivered a solution with data sovereignty, cache clearing and data verification — a productivity gain of over 30%, and client satisfaction as a result.

UX/UI Designer — APPRENTICESHIP

2025 - 2026

INRAP (French National Institute for Preventive Archaeological Research) · Paris, France

- Contributed to leading the UX overhaul of 3 institutional websites (portal, image library, European Archaeology Days): UX audit, wireframes, Figma mockups, functional specifications, designer/developer coordination, and implementation follow-up.
- Designed and built Megacarte, a contributive mapping platform: user research, functional scoping, Figma prototyping, technical architecture and front-end development (GDPR compliance, RGAA accessibility).

UX Researcher / Webmaster — APPRENTICESHIP

2023 - 2025

C2RMF (Research and Restoration Center for the Museums of France) · Paris, France

- +100% traffic in 2 years: user behaviour analysis (analytics), information architecture restructuring, and accessibility (RGAA) and SEO optimisation across most of the site's pages.
- Took part in co-design workshops with the institution and the service provider to improve the CMS (Drupal): requirements gathering, functional specifications, testing, GDPR compliance.
- Redesigned publishing workflows in coordination with the centre's various scientific departments.

✦ Personal & Academic Projects

TheBookClub.cafe — Social platform for discovering books

2026

- UX/UI design and full development of a Letterboxd-style web app for books: user journey design, Figma prototyping, relational database architecture, Google Books API integration, and front-end development.

Wakey — AI-powered news-summary mobile app

2025

- Concept, design and full development of an iOS app delivering a daily AI-generated news digest: user-selected topics, personalised summaries generated via the Perplexity API.
- Built a dedicated design system and a freemium model with tiered access and permissions. Delivered entirely independently, from UX concept through to App Store release.

▲ Education

Master's in Multimedia and Internet Interface Design | Sorbonne Paris Nord University

Top of cohort

2024 - 2026

Bachelor's in Communication | Sup' de Com Paris

2021 - 2024
